PreXicut™

VERSATILITY & PERFORMANCE

2 operations X 1 wheel
2 boxes delivered X 1 box paid*

The new **PreXicut**, the perfect combination in thin cutting and light grinding wheels. Our new two-in-one wheels offer versatility, safety and the best performance for added productivity.

PreXicut wheels are triple reinforced and they can be used not only to cut but for light grinding applications as well.

- They are thin and they can be used for **cutting** and **light grinding** because they are made with **three** fibreglass reinforcements.
- They are available in the two most popular **depressed center wheel** sizes, of **4-1/2"** and **5"**.
- They are **Iron free**.
- They can be used on **stainless steel** and all other types of **metals**.
- They come in a **20 pack metal box** for easy storage and resale.

CODE	DIA	THICK	HOLE	BOX	MAT
D277Q	4-1/2"	5/64"	7/8"	20	Stainless-Steel
D577Q	5"	5/64"	7/8"	20	Stainless-Steel

* Offer expires October 31, 2011. Wheels must be delivered during October. No bookings for later dates allowed.
